### ***Primary Practice Areas and ADR Experience:***

Serves, since 1991, as an ADR neutral primarily involving IP (patent, trademark, trade secret), IT and other technology-related disputes encompassing a wide range of technologies and industries, e.g., aviation, electronics (hardware and software), energy, medical devices, pharmaceuticals, telecommunications and infrastructure (including investment); and secondarily other commercial disputes. Also served, from 1979-2012, as an active IP practitioner concentrating in patent matters (primarily complex electronic, communications and computer-related and mechanical technologies) and trademark matters; and from 2010-2012 as General Counsel (virtual) for Direct Grid Technologies, LLC.

As a neutral, I have arbitrated over 500 domestic and international disputes with damages claimed in some of those disputes in the range of US \$100-600 Million. Handled domestic and international arbitrations under UNCITRAL, ICC, LCIA, WIPO, CPR and AAA/ICDR rules. Serves as chair, sole arbitrator, co-arbitrator and emergency arbitrator. Mediated over 200 domestic and international disputes, including an international patent dispute concerning mechanical and electronic aeronautical technologies with approximately US \$600 Million at issue. Mediated numerous patent litigations in US District Courts involving complex electronic and mechanical technologies and Hatch-Waxman based pharmaceutical patent disputes. Serves as Court-appointed expert in patent law. Mediated a wide range of other substantive areas for the NJ Superior Court system. To date, I have rendered approx. 270 domain name arbitration decisions (20 reported in US Patents Quarterly). I have extensive arbitration, mediation, e-discovery and negotiation training. For further details, see detailed CV on my website.
